

01 PROFILE

Product designer with four years in digital and visual design — including vocational training and a year designing e-commerce experiences for international brands such as Tchibo — now focused on UX/UI and digital products.

I work end to end: research and problem framing through information architecture, interaction design, high-fidelity UI and usability testing. Strong foundation in typography, design systems and production-ready handoff.

05 SELECTED PROJECTS

History Museum — Museum Companion App

UX/UI Product Design · Team of 4 designers + PM · 2026

- Designed a mobile companion app removing friction from museum visits: timed-entry ticketing, indoor wayfinding and multilingual guides in one flow.
- Research reframed the brief — 94% of visitors go spontaneously and 68% arrive by smartphone, yet nobody adopts museum apps, making adoption rather than features the core design problem.
- Built accessibility into the first-run flow instead of retrofitting it: language selection incl. British Sign Language, live font-size slider, contrast and appearance modes.
- Moderated usability testing surfaced five issues — free tours reading as paid, a below-the-fold primary action — all resolved in the tested high-fidelity prototype.

Schuh-Werk — Website Redesign

UX/UI Design · Client Project

- Redesigned the digital presence of an orthopedic footwear business, working directly with the client from research to final interface.
- Ran stakeholder interviews and competitive research; developed personas and user journeys to ground design decisions in real business constraints.
- Restructured site architecture and content priorities around service clarity, credibility and conversion.

Arka — Animal Rescue Platform

UX/UI Product Design · End-to-End Project

- A platform connecting people who find stray animals with nearby shelters and foster homes.
- Conducted user research and synthesized findings into problem definitions, user flows and information architecture.
- Designed high-fidelity interfaces in Figma on a reusable component library; iterated on the flows after usability testing.

03 EXPERIENCE

10/2024 – 12/2025

Media Graphic Designer

Wiethe GmbH — Georgsmarienhütte, Germany

- Designed digital interfaces, landing pages and customer-facing assets for international e-commerce brands, including Tchibo.
- Worked inside established design systems and brand guidelines to keep digital touchpoints consistent at scale.
- Translated stakeholder and business requirements into clear digital solutions across multiple parallel projects and tight timelines.
- Introduced AI-assisted workflows to speed up asset creation and iteration without compromising design quality.

08/2021 – 06/2024

Media Designer — Vocational Training (Ausbildung)

SK Werbung — Lengerich, Germany

- Designed digital and print communication: branding assets, campaigns and promotional content.
- Worked directly with clients to translate business needs into visual solutions.
- Built deep expertise in typography, layout and visual hierarchy, and prepared implementation-ready assets for production.

03/2026 – 06/2026

UX/UI Product Design Bootcamp

WBS Coding School — Berlin, Germany

- Intensive, project-based program focused on end-to-end product design
- UX research, user interviews, information architecture, wireframing, prototyping, UI design
- Design systems, accessibility, responsive design, Agile workflows
- Capstone: Designed a full digital product from research through to interactive high-fidelity prototype
- Applied usability testing and iterative design improvements based on user feedback
- Project-based, team-oriented full-time programme using Agile workflows and collaborative product design practices.

2021 – 2024

Media Designer – Digital & Print

Adolph Kolping Berufskolleg — Münster, Germany

- Professional vocational training in digital and print media design.
- Focus on typography, branding, visual communication and production workflows.
- Developed strong understanding of technical constraints and implementation-ready design.

2018 – 2021

Technical Secondary School

BBS Osnabrück — High School Diploma

UX & Product Design

User Research · User Interviews · Usability Testing · Information Architecture · User Flows · Wireframing · Prototyping · Problem Framing

UI & Systems

UI Design · Interaction Design · Design Systems · Responsive Design · Visual Hierarchy · Accessibility Fundamentals

Tools

Figma · Adobe Creative Cloud · Framer · Notion · Claude Code · Cursor

Collaboration

Agile / Scrum · Cross-Functional Collaboration · Stakeholder Communication · Engineering Handoff

- UX/UI Product Design — WBS Coding School
- Leaders of AI — EU AI Act
- PDF/X Ready Certification
